# Lantern Nets for shellfish farming

### Description

With solid steel rings and cross-bars coated with anticorrosive plastic for very long duration, Siang May's lantern nets are sturdy, ready for the challenge of time and constant fouling.

Our lantern nets with plastic coating prevents rust without the need of using chemical treatments like galvanization, which can release zinc that could be absorbed by the shellfish.

We are manufacturers of lantern nets with two opening types, the classic HDPE string or the practical velcro system. On lantern nets, Velcro offers a real gain of time while classic opening is an economical solution to any shellfish farmer.

Among the farmed bivalves species with lantern nets are oysters, clams and scallops. On top of that, great results have been achieved with other molluscs, gastropods, crustaceans and octopuses.

### Background

Siang May gathers more than 20 years of experience in lantern nets production. Our lantern nets are made of 100 % pure raw material and are widely used all around the world. We are suppliers of lantern nets in the most exigent markets like Japan, Australia, Chile, Peru, Mexico, Spain, France, Greece and Canada, among many others.

As manufacturers and suppliers, we have continuously met our customers' demands by improving and customising our lantern nets to their specific requirements. During all these years, we have made an important number of customised lantern nets, not only manufacturing them of different colours and sizes, but we also have designed special reinforced lantern nets, provided with thicker ropes and sturdier structure.

## Lantern Nets Specification Tables

### Lantern Nets for Intermediate Cultivation:

<b>Lantern Nets Model Code:</b>		R-21	R-30	R-42	R-55	R-72	R-90
<b>Net</b>	Mesh (mmsq)	2.1	3	4.2	5.5	7.2	9
	Deniers	210	280	300	450	600	600
	Type	<b>Raschel (Knotless net)</b>					
<b>Dimensions</b>	Nr. of Storeys	From 5 to 20					
	Diameters	50 cm / 45 cm / 38 cm					
<b>Storeys Height</b>	Rope	20 cm / 15 cm					
	Net	22 cm / 17 cm					
<b>Top &amp; Bottom Frames</b>	Ring	6.4 mm					
	Cross Bar	5.4 mm					
<b>Center Frames</b>	Ring	4.6 mm					
	Cross Bar	4.6 mm					
<b>Joint</b>	Kind	Normal Hook					
	Terminal	Plastic Cap					
<b>Rope</b>	Kind	5.5 mm PE twisted, Black					
	Hanging End	70 cm before tying knot					
	Bottom End	100 cm before tying knot					
<b>Opening</b>	Type	Velcro / Drawstring PE Line 8,000D					

### Lantern Nets for Adult Cultivation:

<b>Lantern Nets Model Code:</b>		K-90	K-120	K-150	K-210	K-310
<b>Net</b>	Mesh (mmsq)	9	12	15	21	31
	Deniers	1,700	2,500	3,500	4,300	6,000
	Type	<b>Knotted</b>				
<b>Dimensions</b>	Nr. of Storeys	From 5 to 20				
	Diameters	50 cm / 45 cm / 38 cm				
<b>Storeys Height</b>	Rope	20 cm / 15 cm				
	Net	22 cm / 17 cm				
<b>Top &amp; Bottom Frames</b>	Ring	6.4 mm				
	Cross Bar	5.4 mm				
<b>Center Frames</b>	Ring	4.6 mm				
	Cross Bar	4.6 mm				
<b>Joint</b>	Kind	Normal Hook				
	Terminal	Plastic Cap				
<b>Rope</b>	Kind	5.5 mm PE twisted, Black				
	Hanging End	70 cm before tying knot				
	Bottom End	100 cm before tying knot
